

ADVAY [LAST NAME]

advayvk@gmail.com · github.com/[username] · [your-site].github.io · Frisco, TX

EDUCATION

Liberty High School — Frisco, TX

Expected graduation: 2028

- Relevant coursework: [AP Computer Science A, etc.]

TECHNICAL SKILLS

Languages: Python, Java, C#, JavaScript, HTML/CSS, Swift

Frameworks & Libraries: XNA/MonoGame, React

Practices: Git/GitHub, Agile/Scrum development, algorithmic problem solving

PROJECTS

Spelunking Penguin — 2D Platformer

C#, XNA/MonoGame

- Designed and built a 2D platformer in C# on the XNA/MonoGame framework.
- Implemented gameplay systems including [player movement/physics, level loading, collision — list what you actually built] .
- Published source code on GitHub.

Personal Website

HTML/CSS, JavaScript, WebGL

- Built an interactive, game-styled portfolio site from scratch with vanilla JavaScript — custom WebGL shader background, drag-and-drop card physics, and a static markdown blog; deployed on GitHub Pages.

LEADERSHIP & ACTIVITIES

Computer Science Club — Officer

[20XX–present]

- Help lead club operations: organizing meetings, planning events, and growing membership.

UIL Computer Science Team — Captain

[20XX–present]

- Led the team through district and regional qualification to the Texas state competition.

AWARDS

- **4th Place, UIL Computer Science — Texas State Competition** ([year]), as team captain.
